Best of Tech 2006: Some of year's coolest high-tech products get another shout-out

The WiLife LukWerks Digital Video Surveillance System sounds like a mouthful. But this easy-to-set-up security system uses existing electrical wires in your home or office through HomePlug powerline networking.

The Wall Street Journal

The Mossberg Solution -- Setting Up Your Own Security Camera at Home

A security camera can be a useful addition to a household. But these systems can get quite expensive and often require a professional installation that includes drilling holes in walls and running wires throughout your house.

So, this week, we tested an affordable surveillance camera that you can set up yourself.

PC Magazine

Gadgets and Gear on Display at Pepcom

Look at that old-school clock. How quaint. How boring. How crafty. Nestled in one of the dots along the top border of the WiLife device is a spycam. If you look at the laptop on the right, you'll notice an image of me taking a picture of the clock (the second square from the top).

USA Today

LukWerks lets you put kids, pets on candid camera

I peeked in on my napping daughter the other day though I was miles away in a mall parking lot. I was testing the remote capabilities of the LukWerks Digital Video Surveillance System, using Palm Treo 700w and Motorola Q smartphones to access a video camera pointed at her crib.

GIZMODO

Play Big Brother: WiLife Pro Turnkey IP-Based Video Security System

These are smart IP video cameras, and when you link up a WiLife Pro turnkey configuration of cameras with WiLife's Command Center software via your existing Ethernet network, you can play security guard, watching and recording every angle. Looks like everything's included except the dorky security guard uniform and all the donuts you can eat.

Central Valley Business Times

Central Valley neighborhood installs security cameras

Stockton, CA - An upscale neighborhood in Stockton now has security cameras monitoring the area.

Residents of a Portsmouth Point, a quite cul-de-sac backing onto a private lake, paid for the installation of security cameras to deter crime and vandalism in their neighborhood.

“We took matters into our own hands.”

Fortune Small Business

Simple Surveillance: A startup offers a do-it-yourself video alert system for small businesses.

Until recently a small-business owner who wanted to install video surveillance had to spend \$4,000 or more for a basic product from a giant security company such as ADT or Honeywell. Dealer-installers controlled the industry, and inducing them to come to your building to string wire and mount cameras was akin to hiring an electrical contractor.

Financial Times

Network cameras on watch for intruders – and family pets

For the past few months, I have been testing the LukWerks family of network cameras from Utah-based WiLife (www.wilife.com)

Like most buyers, I started with a LukWerks “starter kit”, comprising an indoor, outdoor or “spy” camera and the associated PC CD-Rom software.

Forbes

Platinum Protection

With the LukWerks Digital Video Surveillance System, homeowners can view live, full-color, digital-streaming video of the goings-on in their homes--criminal or not.
